

Granskning SDDD:

Check the following:

- ☐ Follows Java Style Guidelines described in the PH p.45
- ☒ All variable names are in english
- ☒ All variable names are self-explanatory
- ☒ All method **names** should have appropriate names
- ☒ All methods that are not obvious are explained with documentation
- ☒ Methods should have one and one only purpose, break up if necessary
- ☐ Code is commented if necessary
- ☒ Uses exception when necessary
- ☒ Uses the right type of exception
- ☒ Traceable error message in the console
- ☒ No unnecessary code
- ☒ Correct use of access modifiers

Generellt:

- I alla klasser under beans och servlets måste denna ändras "serialVersionUID" enligt ovan.(2.4 Names representing constants (final variables) must be all uppercase using underscore to separate words.)
-

TimeReportBean:

- Rad 20: username (2.2: Variable names must be in mixed case starting with lower case).
- Rad 65: Javadoc saknar "@return " variabel.

MailHandler:

- Rad 33: "String = to" Kanske bytas mot typ receiver?
- Rad 53: Hittar ingen javadoc till denna

Login:

- Rad 60: Variabel "usernarn". (2.2)

TimeReportServlet:

- Ingen av metoderna har fullständig javadoc.

PasswordChangerServlet

- Rad 28: Ska inte javadoc förklara när den throw

TimeReport

ManagementServlet:

- Rad 28: Ska det vara någon javadoc här?
- Rad 101: Behöver denna javadoc?
